

Introducing ForeverCare

FOREVERCARESM
A Provider-Led Plan

What is FOREVERCARE?

FOREVERCARE is a provider-led health plan, community-based and Arkansas-focused with a member-centric mission and vision, created to serve Arkansas's most vulnerable populations.

Our Vision

Become Arkansas' premier provider-led sponsored network that brings effective solutions, clinical innovations, member empowerment models, community-based delivery, and a new perspective to the State in transforming healthcare delivery systems..

Our Mission

Provide Arkansans and their caregivers with high quality, patient centered healthcare services through a provider-led, closely coordinated, and team-based approach that achieves excellent outcomes.

Ways we bring our mission to life

- We demonstrate unparalleled experience in managing and delivering physical, behavioral, and developmental disability health care services to members with complex needs.
- Our goal is to foster a relationship in which **FOREVERCARE** is trusted by our members, their families, peers, providers, stakeholders, advocates, the community and the State as a leader in administering innovative quality services and being good stewards of taxpayer dollars to improve the health and quality of life of our community.

We're setting the bar higher

- ⌘ We believe that the *right* care is the result of getting the member to the *right* provider to provide the *right* service at the *right* time in the *right* treatment setting.
- ⌘ We use advanced tools such as data automation and technology to enhance the effectiveness of the overall delivery system and support providers in better engaging members in care.
- ⌘ We seek to not only ensure the *right* treatment plans for our members, but also empower members and their caregivers through education to stay in the best health possible.
- ⌘ We bring the best providers, facilities and vendors into a network to serve our members in their specific communities.
- ⌘ We strive to improve the health and well-being of our members with the highest standard in quality outcomes.

The importance of our partners

- Our partners demonstrate unparalleled experience in managing and delivering physical, behavioral, and developmental disability health care services to members with complex needs. Our goal is to foster a relationship in which **FOREVERCARE** is trusted by our members, their families, peers, providers, stakeholders, advocates, the community and the State as a leader in administering innovative quality services and being good stewards of taxpayer dollars to improve the health and quality of life of our community.
- By law, a PASSE must be 51% provider-owned by at least five provider types. Our partners consist of:
